Abstract (en)
[origin: EP1586717A2] The block has longitudinal sides (2, 3), transversal sides (4, 5), an upper side (6), a lower side (7) and cells (8), where each cell forms a passage across thickness of the block. The sides (4, 5) have cavities (11, 12) in the form of semi-cells extending along the block height and assembled with corresponding cavities (12, 11) of another block placed opposite to the block, to form a cell to be filled with concrete having high density.
