Abstract (en)

The method involves making at least one opening (10) in the insulating casing (8) enclosing the outer conductor (6), inserting a contact element (12) through the aperture into an intermediate space between the insulation and the outer conductor and fixing the contact element to the coaxial cable (2) by engaging a latching arrangement for fixing the contacts element in its mounting position. Independent claims are also included for the following: (A) a contact element for implementing the inventive method (B) a coaxial cable and (C) a device for implementing the inventive method.

Abstract (de)

Die Erfindung betrifft ein Verfahren zum elektrisch leitenden Kontaktieren eines starren elektrisch leitenden Außenleiters eines Koaxialkabels mit den Schritten: Einbringen wenigstens einer Ausnehmung in die den Außenleiter ummantelnde Isolierung und Einführen eines Kontaktelementes durch die Ausnehmung in einen Zwischenraum zwischen Isolierung und Außenleiter.
