Abstract (en)

[origin: WO2004069234A1] A novel extended release oral solid dosage formulation of metoprolol succinate is provided which includes an extended release polymer base retardant coating and a process of production thereof. In the present invention metoprolol succinate tablets comprising of strengths varying from 12.5 to 200mg are prepared via a wet granulation method and the formulation for release of metoprolol for upto 24 hours is provided.
