Abstract (en)

[origin: FR2851178A1] An extruder, for the production of spheroid particles, has a cutting tool fitted with a rectangular blade with two parallel surfaces (P1,P2) and two openings (11,12) for fastening to the tool, is new. A recessed zone at one surface gives the cutting blade structure with a thin plane (C2) against the other surface, with a rim (B) along the side (m1) away from the cutting edge to chop the extruded material.
