Abstract (en)

[origin: EP1447829A1] The installation device (1a) has a contact arrangement (4a) on a connection side (3a) that is compatible with a complementary contact arrangement (5a) of a connecting arrangement (6a) that can be arranged on the connection side and also to a different compatible contact arrangement (7a) of a further connection arrangement (8a) that can be arranged on the connection side. A further connection side (3b) can have a further contact arrangement (4b) compatible with contact arrangements (5b,7b) of further compatible connection arrangements (6b,8b). An independent claim is also included for the following: (a) a Installation unit with an installation device.
