Abstract (en)

[origin: EP1593316A1] The wristband has a screw (81) and a counter-screw (82) secured to each other. The screw has a threaded end that is arranged to pass through an orifice arranged in a lug. The threaded end is introduced into a corresponding internal screw threading made in the counter-screw. The lug is sandwiched between a shoulder of screw at a base of the threading end and an end of counter-screw.
