Abstract (en)

[origin: EP1593641A1] The elevator drive (14) can be fitted close below the ceiling (7) of the elevator shaft with a fitting tool (2) and a hoist (3). The fitting tool, which supports the elevator drive, is arranged on an elevator cabin (1) movable in an elevator shaft and the elevator cabin can be raised and lowered using the hoist. An independent claim is also included for a method of fitting an elevator drive.
