Abstract (en)

The material has at least one carrier layer made of wood material, and at least one outer layer made of a siliceous material applied at the factory, or by the customer, which is mixed with a binding agent. The plate-shaped material is preferably fire-resistant for 90 minutes. The siliceous material is preferably vermiculite or perlite. An independent claim is included for a method of manufacturing a plate-shaped material.

Abstract (de)

Die Erfindung betrifft einen plattenförmigen brandbeständigen Werkstoff mit mindestens einer Trägerlage aus einem Holzwerkstoff und zwei Außenlagen aus einem silikatischen, vorzugsweise brandbeständigen Werkstoff, der mit einem Bindemittel versetzt ist sowie ein Verfahren zur Herstellung dieses Werkstoffes.
