Abstract (en)

[origin: EP1593837A1] An electrical connector (40) with a positive terminal and a ground terminal is provided on a valve housing in which an actuator (3) and a hydraulic coupler are arranged. The ground pole of the actuator is cablelessly connected to the ground terminal of the connector, and the positive pole of the actuator is cablelessly connected to the positive terminal. The connection may be made via the valve housing or the actuator housing.
