Abstract (en)
[origin: EP1594106A2] The label (10) has an upper layer (20) with fields of printed information (21-23), and at least one additional under layer with at least one field of printed information. The upper layer covers the lower layer wholly, and they are bonded together in zones with a permanent (25) and a release (26) adhesion. Perforations (24) in the upper layer, in at least one row, allow it to be peeled away, to give a view of the lower layer. The upper layer is of a special paper or film.
