Abstract (en)

[origin: WO2004068997A2] The invention relates to a cosmetic composition, comprising, in aqueous medium or in water and a solvent, at least one dye, particularly a capillary dye and at least one non-phosphated, ionic, gelling molecular composition with a molecular weight less than 2,000 g/mol and comprising at least two amide groups, an asymmetric carbon and a fatty chain with at least eight carbon atoms.
