Abstract (en)
[origin: WO03072207A2] The invention relates to a short-radius ski associated with a long tip. Said ski (1) belongs to the family of skis known as freeride skis, comprising a tip, the extended length of which represents at least 11.5 percent of the total extended length of the ski. Said tip has a vertical radius (L6) of at least 300 mm. The horizontal radius of the ski between points (A), (B), and (C) is less than 18 meters, and the minimum width (L2) of the ski (3) exceeds 69 millimeters.
