Abstract (en)  
[origin: FR2851690A1] The switch has a body (1) which is closed at one end by an insulated base plate (2) and at another end by a push button (3). The base plate comprises of two pairs of electric contacts (4). A movable connecting plate (6) is disposed between each pair of electric contacts and is moved in one direction under the action of a spring (7) and in another direction under the action of the button.
