Abstract (en)
[origin: EP1595478A2] The invention relates to a set of crockery comprising a plate (3; 10) and a first container (4, 4A-4E; 11) for holding courses. The plate (3; 10) and first container (4, 4A-4E; 11) comprise cooperating first attaching means (1, 1A, 2A-2E; 17, 18) for detachably attaching the first container (4, 4A-4E; 11) on the plate (3; 10). The plate (3; 10) is dimensioned for being held single-handedly by a person and comprises a peripheral cut-out (6; 15) for suspending a glass (7). The first container (4, 4A-4E; 11) has predetermined dimensions so as not to cover the peripheral cut-out (6; 15) in the plate (3; 10) while being attached on the plate (3; 10). The set further comprises at least one second container (9A; 12) having a bottom side with second attaching means (9C) cooperating with the peripheral cut-out (6; 15) for holding the second container (9A; 12) on the plate (3; 10).
