Abstract (en)
[origin: EP1595602A2] The tool has a displacement mechanism displacing a piston rod and includes a displacement unit and a locking unit. A force transmission device (21) acting on the displacement unit has a switching unit arranged on a handle (4) and an actuator (24) to actuate the displacement unit. A actuation unit actuates the switching unit, where the handle together with the actuation unit is arranged on the housing at any arbitrary location.
