Abstract (en)

[origin: EP1595803A1] The tray has a base (11) and two opposite lateral walls (20, 30), each formed of an inclined panel defining an angle lesser than 90 degree with the base. The base is longitudinally bordered by two flaps and the lateral walls are longitudinally bordered by flaps (22, 23, 32, 33). The flaps define another pair of lateral walls and form between them a product display window through which articles e.g. flask, can be seen and taken by hand. An independent claim is also included for a cover for a show pack tray.
