Abstract (en)  
[origin: WO2004075868A1] The invention relates to O/W emulsifiers comprising: (a) hardened palm oil glycerides, and; (b) potassium cetyl phosphate, whereby the proportion of potassium cetyl phosphate ranges from 40 to 80 % by weight with regard to the total mass of the emulsifier. The invention also relates to corresponding O/W emulsions containing a water phase, an oil phase dispersed in the water phase, and 0.25 to 15 percent by weight of the aforementioned O/W emulsifier. The invention finally relates to a method for producing an O/W emulsion of this type.
