Abstract (en)

[origin: EP1602597A1] Coating materials for application of an internal coating (31) to a container with spacers and a synthetic plastic material which can be applied and cured as a liquid for coating the spacers, forming a hollow space (29) between the container walls (e.g. 45) and the coating (39) on the spacers. The spacers consist of a formed paper (21) in roll form and having knobs (25)(sic) located in a grating between channels (23). Independent claims are included for: (1) a method for application of coatings to a container as described above; (2) a liquid container with coated walls.
