Abstract (en)  
[origin: WO2004080580A1] The invention relates to a device for mixing pasty and liquid masses, which device comprises: - a substantially vertically displaceable mixer (8) having a substantially vertical, driven shaft (7) and a mixer part arranged on an outer end of the shaft, and - a cleaning device for cleaning at least the mixer part, which cleaning device comprises a washing space (11) arranged around the vertical shaft and bounded by walls, wherein spray means (17) are arranged in the washing space and an access opening (12) is arranged in a lower wall such that at least the mixer part can be carried into the washing space.
