Abstract (en)
The invention is related to a shower assembly comprising a shower tray (24) and an enclosure comprising one or more panels (26), mountable on the tray, so that in use the panels rest generally on the perimeter of the tray and extend vertically from the shower tray. The shower assembly is further comprising attachment means (29, 30) for slidably attaching the enclosure to the wall of the room, so that in use the panel or panels can slide vertically with respect to the wall of the room if the level of the tray changes.
