Abstract (en)

[origin: GB2399852A] A sealing, trimming or guiding strip 40 for sealing an opening closed by a closure member comprises a first sealing part 42 for attachment to one of the opening and the closure member and a second sealing part 44 for engagement with the first sealing part. The first sealing part may extend continuously around the periphery of the door whereas the second sealing part may be provided only around a part of the door so as to provide additional sound insulation in that region. The second sealing part may be clippingly engaged to the first sealing part by means of an engagement lip 66 and corresponding recess 58 in the first sealing part.
