Abstract (en)

[origin: WO2004085517A1] The invention relates to a method for the solvent-free, continuous production of organopolysiloxane/polyurea/polyurethane block copolymers by reacting amino-functional siloxanes with polyisocyanates and organic polyhydroxy compounds. Also disclosed is the use of the organopolysiloxane/polyurea/polyurethane block copolymers produced by means of the inventive method.
