Abstract (en)

[origin: EP1607502A1] The invention relates to a method for making fabric cut portions with an ornamental effect thereon comprising the steps of: creating, by means of a photo editing program, a mask comprising a background (20) and a plurality of geometric figures (10) superimposed on said background (20), each geometric figure corresponding to a fabric cut portion, said cut portions being arranged in order to be eventually woven on the fabric in full scale; pasting graphic elements (4) on said mask in a predetermined way for each cut portion; creating an image file of said mask with said graphic elements pasted thereon; transforming said image file into a readable format file by the control system of the loom, by means of a setting program; acquisition of said readable format file by the loom control system, said loom being ready to weave weft and/or warp yarns in a plurality of colours; weaving said yarns by said loom according to said image file obtaining a woven fabric (1) according to said background (20) and to said images (4) pasted in said geometric figures (10). <IMAGE>
