Abstract (en)
Disclosed is a micro-plug and socket connector (1) that is suitable for mounting on a printed circuit board and that has a plastic housing (2) comprising a fastening surface with soldering portions (8, 9) for mounting on the surface of the printed circuit board, and comprising a plug receiving opening (3) having an inner contact region (10) for the receiving and contacting a pin contact, and comprising an outer contact terminal. The inner contact region (10), the outer contact terminal, the soldering portions (8, 9) and the electrically conductive connections provided therebetween are configured in the form of metallized portions of the plastic housing (2). <IMAGE>
