Abstract (en)

[origin: WO2004083491A1] The aim of the invention is to provide sanitary fittings, especially water supply fittings which, in terms of aesthetics and haptics, are very similar to the stainless steel surface of stainless steel sinks or are scarcely distinguishable therefrom (stainless steel finish), using starting materials that can be machined at lower cost. According to the invention, a fitting or fitting parts are produced from brass; the fittings or fitting parts are ground and polished; the visible surfaces of the fittings or fitting parts are nickel-plated; the nickel-plated surface of the fittings and fitting parts are ground and/or brushed; and the ground or brushed nickel-plated surfaces of the fittings or fitting parts are chrome-plated.
