Abstract (en)

[origin: EP1611929A1] The fixation has a base plate (1) intended to be fixed on a ski board, and a fixing unit for fixing a sports shoe. A spoiler (3) is mounted movably around an axle (4) with respect to the base plate and connected to the base plate through a guy rope (7) for its movement relative to the base plate, on each lateral part of the base plate. The axle is mounted on a link (5) that is movably mounted on the base plate.
