Abstract (en)
[origin: EP1612152A1] The package has a container (10) made of cardboard or other semi-rigid material, and a sack (20) housed in the container. A cover has a central panel bordered by side panels. A connection, an opening tab (120) and a notch arranged in a flap form a hinge. The cover is maintained to be flat on the top of waste, with the side panels folded back against the central panel. An independent claim is also included for utilization of a composite package for collecting hospital wastes.
