Abstract (en)

[origin: DE102004013830A1] The pivot assembly for enlarging the operating width of a rigid arrangement of the tools such as plough blades, tines of a wheeled collapsible agricultural implement has at least one outrigger boom (4) to hold the implements. There is a pivot point (D) for rotational movement provided on a rigid point of the implement to allow the boom to pivot forwardly from a use position to a transport position. The pivot point can be mounted on an auxiliary support (H).
