Abstract (en)
[origin: US2006060100A1] A method for printing a plurality of base materials with a device including a plurality of print units, a distribution system for distributing the base materials in the print units and a recovery system for recovering the printed base materials after each of the materials has passed through a print unit, including distributing the base materials in the print units through a top end portion of the print units with the distribution system; and recovering the printed base materials after each of the base materials has passed through a print unit through a bottom end portion of the print units with the recovery system.
