Abstract (en)

[origin: WO2004093276A2] A displaceable contact piece (3) of an earthing switch (4) transverses the wall (2) of a housing of a capsule. Said displaceable contact piece (3) is sealed with respect to the capsule housing wall by means of a sealing element. The displaceable contact piece is connected in an electrically conducting manner to the capsule housing wall (2) via the sealing element.
