Abstract (en)
[origin: EP1614826A1] REMOVABLE MODULAR URBAN RAILING integrated by a panel of braided mesh of a hot-rolling steel profile framed by vertical and horizontal members, having integrated or continuous handrails, with particularized and suitable support means for each case and sustained by a set of anchoring feet to which they are fixed by means of riveted anti-theft screws and in turn fixed on foot block, to the forged edge or received in the foot block, so that the railings are removable in all of its parts in all cases with the exception of the last, which are semi-removable.
