Abstract (en)

[origin: EP1614849A2] The device has a setting and fixing part (5) with two longitudinally sectioned flexible walls (6, 6') defining support surfaces (7, 7') respectively that are in contact with a rebate and an edge of a unit (2) e.g. double glazing plate. The part has sections (10, 12) to assemble a fixation screw (11) of an outer glazing bar (3) and to removably assemble an inner glazing bar (4) respectively. The part is masked after placing the bar (4). An independent claim is also included for a door, window or closure of bay or opening of a building.
