Abstract (en)

Method for producing a box sign. The method comprising providing at least one panel substrate (9) with a predefined pattern (8), providing a side panel (7) for the box sign and combining the at least one panel substrate (9) and the side panel (7) to obtain the box sign. The cutting means are used to provide an inner perimeter of the side panel (7) and an outer perimeter of the side panel (7), the inner and outer perimeter being congruent with the pattern (8) of the at least one panel substrate (9).
