Abstract (en)
[origin: US2006191986A1] The hinge-lid pack comprising box part (11) and lid (12) features a polygon-like configuration in the region of its side walls (22, 23), namely having angular wall legs (28, 29) and a narrow, transverse side wall (22, 23). The cross-sectional shape of the hinge-lid pack thus conforms to the contour of a cigarette group as the pack's contents, with the cigarette group having at its edges adjacent to the side walls (22, 23) a marginal transverse row of 2 cigarettes and adjacent thereto a transverse row of 3 cigarettes.
