Abstract (en)

[origin: WO2004093473A2] The invention relates to a method for creating a user profile for a mobile radio terminal user using a mobile radio terminal (16) comprising a menu guided display (40). Desired menu points (39) are selected by means of a control unit (42) of the mobile radio terminal (16). The selected menu points (39) are stored by the mobile radio terminal user in a memory unit (22) in order to create and evaluate a user profile.
