Abstract (en)

[origin: US2006006046A1] An escalator and moving walk shaft mounting construction and method utilizes a truss, a shaft and a shaft-bearing to hold the shaft in the truss. The shaft bearing has a hub and a socket. The hub is affixed to the truss, while the socket interfits with the hub to hold the shaft. The hub-socket connection can be severed to release the shaft from the hub.
