Abstract (en)
[origin: EP1617016A1] The frame has an overhead frame to tension external canvas of a shelter, and four gutters (22) integrating plane units (18) arranged to form a floor. A round cavity (42) integrates the external canvas of the shelter. The gutters act towards the base by compression and are disposed on an upper part of a foundation frame. The round cavity acts by lateral tension and is arranged on the sides of the foundation frame. An independent claim is also included for a tent type shelter.
