Abstract (en)  
[origin: EP1617027A2] The fitting assembly (1) for window or door leafs has a casement (3) and a fixed frame (2), and two crossing over links interconnected by a rotatable slide connection, whereby one of the links forms an adjusting arm for the casement and the other link forms a control arm for the adjusting arm. For the connecting of the control arm and casement one end of the control arm is rotatably connected to an intermediate link via a rotatable bearing, and the intermediate link is rotatably connected to the casement via a further rotatable bearing (22).
