Abstract (en)
[origin: EP1617081A2] A sealed type electric compressor includes a sealed vessel (51,52); a compressor unit (11); a motor (12); and a motor driving module (13) having a power unit (131) and a control unit (132), for operating the motor (12), wherein the compressor unit (11), the motor (12) and the motor driving module (13) are accommodated in the sealed vessel. The sealed type electric compressor allows the size of an outdoor unit to be reduced by accommodating the motor driving unit in the sealed vessel and reliably performs a signal transmitting/receiving operation to/from an exterior.
