Abstract (en)
[origin: WO2004095997A1] The invention relates to a partition (10), in particular for a shower comprising at least one sliding door (11) and at least one partition element (12) adjacent thereto. Said invention is characterised in that, at least one surface of the sliding door(s) (11) in the closed position thereof terminates on the same plane that the surface of said partition element(s) (12).
