Abstract (en)

Crash barrier arrangement has a barrier rail (12) running along a lengthwise axis (A), several posts (14) anchored in the ground and several spacing parts (16) coupled to the posts. The rail has an orthogonal cross-sectional part, which has at least a contact edge (38,40) and fastening edge (42). Each spacing part can be fastened to a post, and the end facing the arrangement has a coupling device to connect the barrier rail to the spacing part.
