Abstract (en)
[origin: WO2004096645A1] The invention relates to a packaging machine with which packaging cavities (3) are filled with a product to be packaged and are closed by a cover film (2). Said packaging cavities (3) are displaced in an intermittent manner along the packaging machine, and the cover film is stretched to its exact positioning on the packaging cavities. The invention also relates to a method for sealing a cover film on packaging cavities.
