Abstract (en)

[origin: EP1621237A1] The set has a skate (20) and binding units (3, 4) mounted on a support (22). Front end of the skate has folds forming fitting tabs that are fitted in housings situated at the level of a front assembling zone (23) of the support. Ends of the skate are placed between the support and bases (7, 13) of the units engaged on their respective slides. The skate and the support are made of metal and fiber reinforced plastic, respectively. The fitting tabs and the housings are oriented to vertically fit along a direction non-parallel to longitudinal direction of the support.
