Abstract (en)

Device (3) for aligning plates, in particular insulation plates on a building wall (2), comprises a guide strip (5) which by means of a fastening rail (4) is joined to the building wall. Independent claims are also included for: (A) a plate for attachment to building walls; (B) a wall covered with the proposed plates; (C) a system for construction of walls covered with the proposed plates; (D) a method for aligning plates, in particular, insulation plates on a building wall.
