Abstract (en)

A laundry creamy smoothness improver, comprising potassium metaphosphate; a detergent composition comprising the above creamy smoothness improver, and a solubilizing agent; a process for hand-washing, wherein washing is carried out under conditions of a potassium metaphosphate concentration in water of 30 mg/L or more and a liquor ratio of 2 or more; ; laundry creamy smoothness improver granules, comprising potassium metaphosphate; a detergent composition comprising the above creamy smoothness improver granules and a solubilizing agent; and a detergent composition comprising the above creamy smoothness improver granules. The laundry creamy smoothness improver or the laundry creamy smoothness improver granules can be suitably used for hand-washing and washing-machine washing.
