Abstract (en)
[origin: EP1624118A2] A construction element, suitable for making a construction or a portion thereof, such as a house, a wall, a roof, a kennel and the like, comprises positioning and connecting means suitable for positioning said construction element relative to a further construction element and for joining it thereto, and restraining means, distinct from said positioning and connecting means, suitable for stably attaching said construction element to said further construction element.
