Abstract (en)

The wristwatch has an integrated circuit (20) generating control signals to be sent to a motor control circuit (25), to display information relating to golf play, by hour and minute hands (9, 10) during a golf mode. The hands (9, 10) respectively indicate number of strokes played at a given hole and number of holes in question. The circuit has a memory zone (23) storing scores at each hole in addition to total number of strokes played.
