Abstract (en)
[origin: EP1626134A1] A modular construction wooden house has a flat base (4) on which the outer four walls (2) are assembled. These comprise vertical wood assemblies up to 25 metres high and with a width of between 600 and 690 mm and a thickness of between 100 and 160 mm. The outer walls have external and interior surfaces and the upper floor (5) is secured to the insides of the outer walls. The house is completed by fitting roof modules (6) onto the outer walls. The inner walls are fitted as required.
