Abstract (en)

[origin: EP1627817A1] The package has a base panel (3) placed between two semi-panels. The base panel has a central panel and four articulation flaps (31-34) that are delimited by concave arcs (35-38) and by articulation lines (131, 132, 231, 232). The arcs contact inner surface of the semi-panels to provide cylindrical contour to the package. The lines deform along base contour of the package and the flaps are folded along inner side of the package.
