Abstract (en)
[origin: US2006037511A1] A mobile track maintenance machine comprising a machine frame extending in a longitudinal direction and supported on a track by undercarriages, track working tools mounted on the machine frame, a sound-proofing wall arranged on the machine frame and having an upper end, a lower end and side ends spaced from each other in the longitudinal direction and connecting the upper and lower ends, and drive means for adjusting the sound-proofing wall relative to the machine frame.
